ABOUT THE WORKSHOP

Corporate litigation is a combination of disputes and litigation, which strikes at the core of a company's business strategy and business implementation. For risk-adverse companies, nothing brings dread like the prospect of litigation. Therefore, one needs to learn the technical aspects of corporate litigation in order to understand the nuances of the business ramifications. It is the legal action taken by a Corporate and includes measures taken to avoid litigation as well as litigating and managing business disputes. The establishment of Commercial Courts, a renewed arbitration law, passage of Insolvency & Bankruptcy Code, 2016 and constitution of National Company Law Tribunal reflects a completely overhauled judicial set up.

This Workshop is a platform to deliberate upon and discuss the policy, procedure and practice in Corporate Litigation. The sessions would include an Overview on Policy, Procedure and Practice of Corporate Litigation in general and Corporate Litigation in key areas of Contracts, Competition Law, Intellectual Property Rights, Cyber Law and Taxation.
